Sorry about the delay in answering your letter but I was told that one of our representatives was on the point of interviewing you once more. I believe he did so last week and that you and he have had a meeting of minds. If there is anything further that you would like me to do at this end please let me know.

It was great to hear from you after all these years and I hope you do get Washington as I would love to see you again. Give  my best when you see him.

Sincerely,
